

Loc Nguyen

(571) 992-3166 | nguyhuup@oregonstate.edu | [GitHub](#)

EDUCATION

Oregon State University

(B.S.) in Computer Science & (B.S.) in Mathematics

GPA: 4.0/4.0

Corvallis, OR

Jan 2026 – Present

PROJECTS

2026 MATE ROV Competition (Explorer Class)

Jan 2026 – Present

- Fine-tuned YOLO26n-obb and created crab dataset to solve Task 2.1: Mitigate invasive species (crab image recognition) in DAM Robotics Club, Underwater Team (International Round Qualifier)
- Scaled model training by migrating workflows to OSU's HPC cluster

Directed Reading Program

Apr 2026 - June 2026

- Learning Spectral Graph Theory and its applications in spectral graph partition | [Presentation](#)

Jobbedin

May 2026

- Won the AI For Good Agents track by co-developing an application that utilizes LangGraph to orchestrate multi-agent workflows for automated company research, resume feedback, and cover letter generation | [Devpost](#)

vigOR

May 2026

- Led a 4-person team at BeaverHacks 2026 to architect a health platform that utilizes NVIDIA Nemotron to analyze real-time environmental data and find safe-route navigation for individuals with asthma | [GitHub](#)

PiMA - Projects in Mathematics and Applications

Aug 2025

- Learned mechanics and development history of Latent Dirichlet Allocation (LDA), implemented the model for topic modeling, and wrote a technical report on the findings | [Report](#)

SEAS - Summer in Engineering and Applied Sciences

Jul – Aug 2025

- Applied machine learning algorithms to filter signal noise in OFDM system, under the guidance of an Ericsson Japan researcher, to study the potential of data-driven signal processing for 6G networks | [Presentation](#)

AWARDS

Honorable Mention, 2026 Mathematical Contest in Modeling

Jan – Feb 2026

Oregon State University **Regional Award** Scholarship: \$12,000 annually

Jan 2026

Meritorious Award, SIMIODE Challenge Using Differential Equations Modeling | [Presentation](#)

Oct – Nov 2025

Vallet Scholarship, \$625 annually

2023 – 2025

Second Prize, Vietnamese Mathematical Olympiad, rank 23rd

2024 – 2025

Third Prize, Vietnamese Mathematical Olympiad, top 150

2023 – 2024

TEACHING EXPERIENCE

Olympiad Mathematics Mentor

2024 – 2025

Mentored underclassmen in advanced problem-solving strategies for the Vietnamese Mathematical Olympiad

RELEVANT COURSEWORK

Mathematics: MTH252Z Integral Calculus, MTH231 Discrete Mathematics

Computer Science: ENGR103

Others:

Self-study: MIT OCW 6.041 Applied Probability (in progress), MIT OCW 18.06 Linear Algebra

TECHNICAL SKILLS

Languages: Python, C++, Powershell

Tools: Slurm

ACTIVITIES

Oregon Supercomputing Club , Member (Attend SCC training this summer)	Apr 2026 - Present
DAM Robotics Club , Underwater Team	Jan 2026 - Present
AI Club @ OSU , Member	Jan 2026 - Present

MISCELLANEOUS

Completed training course for Vietnam Student AI Olympiad 2025 (OlpAI'25) by SkillPixel Cert	Sep – Nov 2025
Collection of Mathematical Olympiad Problems	Sep 2022 – Sep 2025
Collected favorite math problems with my solutions in Vietnamese during high school Pdf
